Director's Message

I am glad to know that Dnyanjyot Shikshan Sanstha's **GEMSTONE WORLD SCHOOL** is giving glorious service in the field of education and brought out its school magazine 'INSPERIA'. I wish to congratulate all the team of the school staff that they have such kind of positive attitude and they are ready to make available the space for all round development of students as well school.

Gemstone World School has always been conscious of its desire to contribute to the ever building community through initiatives involving social services and education. A school is really inspiring to a child for the lifetime love of learning and knowledge and providing the foundation for all - round development and excellence in every walk of life. This idea of 'INSPERIA' ignited us at Gemstone World School as 'A journey of thousand miles begins with one small step . ' Our motto " New Generation School " was carefully thought to portray the development of new generation children . It's very interesting that the school is keeping pace with national and international and all time as well all types of experience through the magazine. We look forward to offering our students educational values that are more authentic, relevant and technologically connected.

I am sure that the school would continue to make a significant contribution in educating the students in such a manner so that they could face the future challenges in upcoming life

I congratulate all the staff and the students for the commendable achievements .This is the result of dedication and hard work done by the school which have led the school towards greater heights of glory

With best wishes

MR. BABASAHEB G. BAYAS

President, Dnyanjyot Shikshan Sanstha

Expert's Talk

We all want to be the best parents we can be for our children, but there is often conflicting advice on how to raise a kid who is confident, kind and successful. And every aspect of being a parent has been more complicated and more fraught during the pandemic, with parents managing complex new assignments and anxious new decisions, all while handling the regular questions that come up in daily life with the children we love.

Throughout the circus act of parenting, it's important to focus on balancing priorities, juggling responsibilities and quickly flipping between the needs of your children, other family members and yourself. Modern parents have the entire internet at their disposal and don't follow any single authority. It's hard to know whom or what to trust. Here, we'll talk about how to help your child grow up to be a person you really like without losing yourself in the process. As your child develops, the challenges will change, and your thinking may evolve, but your approach should be consistent, firm and loving. Help your child learn through experience that making an effort builds confidence and helps you learn to tackle challenges. Calibrate your expectations about what your child is capable of doing independently, whether you have an infant learning to sleep through the night, a toddler helping to put toys away, or an older child resolving conflicts. Remember, there is no one right way to raise a child. Do your best, trust yourself and enjoy the company of the small person in your life.
